SUMMARY

UI/UX and Product Designer with 1+ years of professional experience creating user-centered design solutions for diverse clients across e-commerce, real estate, and enterprise SaaS platforms. Specialized in translating complex business requirements into intuitive workflows, high-fidelity prototypes, and production-ready design systems. Proven track record of collaborating with cross-functional teams to deliver 10+ design projects from research and wireframing through developer handoff. Strong ability to balance user needs with business goals while maintaining design consistency and scalability.

EDUCATION

Bachelor of Software Engineering
COMSATS University Islamabad
CGPA: 3.28/4.0

02/2022 – 02/2026

PROFESSIONAL EXPERIENCE

UI/UX Designer
CodeSwift

02/2026 – Present | Onsite, Rawalpindi

- Lead end-to-end UI/UX design for 8+ client projects, including the company's enterprise EHSS system, construction, e-commerce, and logistics solutions, corporate websites, and responsive web and mobile applications.
- Collaborate with developers to deliver implementation-ready designs through design systems, interactive prototypes, reusable components, and detailed design specifications.
- Conduct stakeholder meetings, user research, and requirements analysis to create user flows, wireframes, and high-fidelity interfaces aligned with user needs and business objectives.

Product Design Lead
BangoPure

03/2026 – Present | Remote, UK

- Lead product design for multiple microservices within a sustainability platform, including Event Catalyst, Rematerial Academy, Waste to Wealth Marketplace, AI Assessment, and Digital Product Passport.
- Translate business requirements and technical documentation into user journeys, wireframes, and high-fidelity interfaces for engineering teams.
- Partner with UK-based stakeholders and cross-functional teams to iterate designs, improve usability, and ensure alignment with product strategy and business objectives.

Full Stack Developer
Fiverr

01/2025 – 01/2026 | Remote

- Developed and deployed 4+ production-ready web applications for clients using the MERN stack and Next.js, including e-commerce platforms with product management, JWT-based authentication, RESTful APIs, and role-based dashboards.
- Collaborated directly with 5+ clients throughout the project lifecycle, from requirements gathering and development to deployment, delivering solutions that met client expectations.
